Standard equipment	Optional / Spare parts:
Single rear hopper for 50% seed and 50% fertilizer, 3000 lt	Additional 1200 litre hopper
High capacity volumetric pneumatic metering unit:	ISOBUS LSS2 With headland closing without monitor
Distributor	Hydraulic system with tank on seed drills with heat exchanger
Mechanical distribution wheel	Hydraulic braking system
Lighting system kit with reflectors and flashing lights	Rear wheel shock absorber pistons
Hydraulic rear trolley with 550/45-22.5 422 16* tyres	Cochlea
2 central front hydraulic wheels, size 225/70 R15C	Seed cover harrow (cost per meter)
2 hydraulic wheels on wings, size 225/70 R 15C (5 meters)	Custom colors (2 colors)
Hydraulic system directly to the fan	
With quick couplings to the tractor	
Toolbox and hand wash basin
